HORSESHOE LAKE RULES

Pike Angling Rules and Guidelines:

- 1** ALL OTHER RULES APPLY
- 2** Pike fishing is only permitted between 1 November and 1 March
- 3** Pike fishing is limited to two rods only. (**Please note:** When pike fishing a third rod is not permitted to fish for carp. Similarly when carp fishing a third rod is not permitted to fish for pike).
- 4** Barbless hooks must always be used on all spinners / lures, and all trebles (except for one barbed hook permitted for holding on dead bait).
- 5** All pike anglers must carry adequate forceps, pliers, side cutters and antiseptic treatment at all times.
- 6** Braid is permitted for spinning and lure fishing only. This must be 25lb breaking strain or over.
- 7** Only sea fish are permitted to be used as dead baits.

Pike are very fragile and delicate creatures, and despite their predatory looks and images require extra care and attention. Any angler who appears to be lacking the necessary knowledge and experience in fishing for and handling pike may be asked to stop fishing.

Please note: these rules and guidelines are only in place for the future welfare of our fish stocks.

Any rule infringement will be noted and tickets/cards will be marked accordingly. A second rule infringement will result in the angler/s being asked to leave the lake immediately. Future access to the lake will then be subject to the consideration of the Society Management, who will notify the angler/s in writing.

The Bailiffs carry the full support of the management team and their decisions are final.
